Varieties.

The Arbitrations are to come to a close, with their side-splitting jokes, bitter-destroying comedies, &c.

Rev. R. D. Nevins, Rector of St. John's Church, All City, has received a call to go to Mobile, and will leave next month.

A Buffalo detective officer was in Titusville yesterday, searching for a fugitive from justice from that city. He was directed to Pittole.

Mark Twain is to lecture in Franklin on February 16th. It is said he has more engagements and draws larger houses than any other lecturer in the country.

Persons who desire to attend the Lecture of Miss Anna Dickinson, the evening, and who have not yet secured seats, had better do so early this morning, as nearly four hundred reserved seats have already been sold.

John D. Nichols, Esq., of Meadville, has been appointed Clerk to the Committee in the contested election case of Thomas Glesbank, Associate Judge of the District Court of Philadelphia.

Reserved seats can now be secured for the grand concert in the Presbyterian church, on Monday evening next. The program may be found at the post office news room, and those wishing to secure choice seats should apply at once.

The Venango County papers are watchfully down on the new county project, in their last issue and admonish their people to "wake up" or they will be robbed of their territory. Mr. Hale has broken his leg, and cannot attend "the wake."

Mr. Alfred Vick, of Rochester, has returned to Titusville after nearly a year's absence, to resume instructions in instrumental music. Mr. Vick has few superior, in his opinion, as many of his former pupils can testify. His return will be hailed with satisfaction.

A fair audience assembled last evening to listen to the lecture of Prof. J. E. Franklin on Phrenology, and the character and traits of the different subjects for examination were most successfully delineated. The Professor lectures again at Corinthian Hall Saturday evening, the 23d inst.

A woolly horse was brought to Titusville yesterday, consigned to Honest Jack. The animal was raised in Missouri and is doubtless a near relation of Barnum's woolly horse, which was the first of the species ever produced in this country. The wood upon Jack's horse is three inches in length. He will keep the animal for his own use, and as a social companion for his educated mate.

It is scarcely necessary to call attention to the lecture of Miss Anna E. Dickinson in Corinthian Hall to night. The sealing capacity of her hall will be fully tested, only a few seats now remaining unoccupied. The title of the lecture is "A Struggle for Life," in which Miss Dickinson lances the wrongs of her sex, and the remedy to be applied to better their condition. It is due to her happiest effort on the rostrum, and as been received with very great favor and applause wherever it has been given.

Considerable sensation was created in the streets yesterday afternoon by the despatched entrance of a blinder named Jack Daly, who was created by policeman Doherty, and with the assistance of several citizens, taken to the station and locked up. Daly and a companion named Higgins, were charged with attempting to commit thefts at Loeb's grocery store on Franklin street. They were followed out upon the street, where an alteration commenced, and Doherty made the arrest. Daly, who is a powerful man and a practical bruiser, resisted desperately, and was taken along with great difficulty. Higgins was afterwards found and picked up. Both men being in cuffs.

The Indiana Senator.

There is a bolt in the Indiana legislature

against the election of Lieutenant Governor Willard as Senator, which promises to be formidable.

In the ballot yesterday, Cumback received 22 votes in the Senate, Hendricks 19 (the democratic strength), and 9 Republians voted.

The boltors were scattered among several centers.

In the house Cumback had 48 votes, Hendricks 45, and the leading Republicans cast ten votes.

The nominee has thus a majority neither branch of the legislature, and the law of the State makes it necessary for him to have a majority in both branches.

It is said that votes are being made by the boltors to unite with the Democrats on some Republians who will beat Cumback, and Colonel

W. Thompson of Terre Haute, the author of the last Republican national platform,

a come down from Terre Haute with a number

relatives to secure his own nomination.

The way out of the difficulty is for one branch

the other of the Republicans to back down,

and Doherty made the arrest. Daly, who is a

powerful man and a practical bruiser, resisted

desperately, and was taken along with great difficulty.

Higgins was afterwards found and picked up.

Both men being in cuffs.

A

Anna Sefton.—This accomplished and tal-

ented actress has a benefit to night at the Opera

house, Pleasantville, upon which occasion will

present two magnificent pieces entitled

"Sea at Fury."

This is the seventh num-

ber of Mrs. Sefton's troupe eighth place, and a success which she has met is a flattering

testimonial to her talents as a manageress as

as an accomplished actress, and we have

doubt that this evening the capacity of

the Opera House will be fully tested by those to

whom by long association she has become en-

T. W. Keene and J. Q. Adams have

had many friends during their stay in the

United States, and the entire company are well received.

REWARDS FOR THE BANK OF MONTREAL, Ron-

on.—The Bank of Montreal offers a reward of

\$100 to any person who shall give such informa-

tion as will lead to the apprehension and con-

dition of any one of the parties, who abed the St. Catharine branch. Also, \$1,000

each person, after the first convicted of such

treason; and a further sum of \$3000 for the ap-

prehension and conviction of each accomplice of

robbery. A reward of 50 per cent, on any

one of the stated money, which may be recov-

ered and paid over to the bank, is also offered

A NEW WALL.—A new wall called the Ham-

ley well No. 3, commenced paving on Mon-

day last, on less No. 8, Burtis, Furtig and Ham-

ley street, Pleasantville, and is producing

at 50 barrels per day. The working interest

is owned by Messrs. J. W. Humphrey, of Pitts-

burgh, and Henry C. Ayers, of Pittsburgh.

A

MAGNIFICENT FINE COAL STORE, a good one,

an anti-slavery, a good buyer, for sale cheap,

of H. C. Stow, Pleasantville office.

Contested Elections.

There are now before the Legislature three contested election cases. The first is that of Wm. M. Bunn, Republican, contestants of the Senate of Daniel Williams, Democrat, sitting member, returned from the 11th District of Philadelphia as elected to the House of Representatives by a majority of 35 votes. Mr. Bunn claims that the illegal votes thrown out by the people have a Republican majority of seventy-three. The committee drawn in the case are Mease, Strong, Clark of Warren, Woodside, Wilson, Dill, Herr, Leslie, Phillips and Miller—all Republicans except Dill. The probability is that the contestants, Mr. Bunn, will get the seat.

The second is that of Russell Thayer, Republican, who contests the election of Thomas Greenbank, Democrat, returned as elected by a majority of 125 to the office of Associate Judge of the District Court of Philadelphia. Mr. Thayer claims that if the fraudulent votes cast were thrown out, he would have a Republican majority of 1,097. There were over 121,000 votes polled for the two candidates. The committee drawn in the case is a joint one from the two houses, and consists of Messrs. Miller, Brown, of Northampton, Stinson and Lowry, on the part of the Senate, and Messers. Nelson, Ames, Beatty, Hunter, Robison, of Mercer, Goudie, Marshall, Josephs and Webb, on the part of the House—8 Republicans and 5 Democrats.

The other case is in reference to the office of president-judge of the district court for Philadelphia. The contestants, Wm. L. Hira, is a Democrat, and the petition sets forth that he received 200 more votes, of qualified electors, than the Republican candidate, J. I. Clark Hira, who is returned as being elected by a majority of twenty-five. Mr. Hira also claims that over 500 legal voters that presented their ballots for him had their votes rejected illegally. The committee in this case is also a joint one, and consists of Senator Stinson, Taylor, McIntire, and Brown, of Northampton, and Representatives Ames, Clark, of Warren, Stephen, Miller, Edward, Nicholas, Peers, Robins and Price—10 Republicans and three Democrats.

The result of the investigations of these committees will be looked at with a good deal of interest, and it is their intention to make thorough work of the business in hand.

A MAD DOG created intense excitement on Broadway in Cincinnati the other day. The brute made his first attack on a fruit dealer, sinking his teeth in the calf of his leg. The latter finally freed himself from the animal, and sought shelter in a house, shouting "mad dog." The dog then started up Broadway. As it was an hour when the street was filled with people going to their places of business, T. A. M., the animal succeeded in inflicting injuries on some twenty persons before he was killed. The proprietor of a culinary establishment had his hand lacerated fearfully by the dog in an attempt to shoot it. A policeman was also bitten severely during a sharp tussle with it. The dog bit right and left, snapping at hands and biting at throats and breasts in a most savage manner. An excited crowd of men and women pursued him up the street, and by worrying him with sticks and stones, increased his fury every minute. In his course up the street he bit at least fifteen persons, and no one knows how many of the dogs that joined in the race. A bar keeper was badly bitten in the arm, a hired girl lost nearly all of her clothes torn from her, and lost a piece of the calf of her leg; a tobacconist was bitten severely in the thigh. Fifteen persons were pursued until severally before the animal was killed. The police afterwards commenced a slaughter of all the dogs bitten by the rabid one.

The confessions of Arnold and Averroë, two of the parties to the conspiracy which resulted in the assassination of President Lincoln, are now published for the first time. The confusion of Arnold was made voluntarily, in Baltimore, on the 14th of April, 1865, in the office of Marshal McNeil, and that of Averroë in his cell at Washington, on the night before the execution.

It is a soft, wet, soggy thing.

I have no idea that she would like to visit the "Young South," will hear that it is the most God-forsaken place on earth except as to climate, at this time of the year. No Northern ladies are tolerated in society, they are all "labeled" for the reason that they are Yankees—no matter whether they are Republicans or Democrats.

In business transactions, Northerners do well enough, if they can't receive or have any social status, with few exceptions. I was invited to a Chrisman dinner at Macon by one of the first citizens there, but he was originally from New Jersey, and a truly loyal man and a good one. The great trouble is, these women are proud in Lucifer, and can't get over it. They are being made the social outcasts.

I don't like anything at the South but the climate. Any Northern man who has lived what will care hardly comfortably would be absolutely shocked at the way they live down here. Nasty

in their persons and in their habits (the very best of them); hog and corn constitute their chief diet, their tables are filthy, and their guests are gross. Every one sticks his own dirty knife into the salt and into the dinner, blows their noses on the table cloth, the food is choked as you never saw it cooked—even in Old China.

If they have a bath, it is swimming in a tub.

They are very much like hogs. They eat largely of a sort of sweet potato called a Yam, which they take in the hands, and eat with a spoon; it is a soft, wet, soggy thing.
